

How AK Building Services Is Protecting Clients

Our Response to the Coronavirus (COVID-19)

At AK Building Services, the safety of our team members, clients, and the public is always of primary importance in everything that we do. In light of the fluid situation regarding COVID-19, AK Building Services remains vigilant in monitoring the most up-to-date safety, infection control and cleaning protocols recommended by The Centers for Disease Control and Prevention (CDC) and the Occupational Safety and Health Administration (OSHA). We are actively engaged with our employees on the front lines to ensure the appropriate information is shared and our clients' needs are met.

We utilize hospital-grade products to clean, disinfect & sanitize.

AK Building Services prepares & defends your locations with industry-leading products that combat the spread of germs to promote healthy & safe work environments.

Protecting your space, the safe, smart way

Our commercial disinfectant partners offer medical-grade disinfectants, eliminating over 99.99% of bacteria and viruses. This includes dangerous bacteria like salmonella and E. coli, common viruses like the cold, flu, and disinfectant-resistant pathogens like MRSA and Coronavirus. Even though they're tough on germs, the disinfectants we use are gentle and safe for you and your workspace.

Germ spread fast, your disinfection plan must be faster

Kill germs instantly with AK's Electrostatic Sprayers & Clorox® Total 360® System

Our Electrostatic Spray Systems provide greater surface coverage in less time with less solution. The system is built for maximum efficiency with minimal waste, delivering better results quickly and easily.

- EPA approved to kill COVID 19 & kills 99.9% of bacteria in 5 seconds
- 44 organism claims: Kills colds & flu viruses, MRSA & norovirus in 2 min or less
- One-step disinfecting, eliminates odors & sanitizes soft surfaces
- Inhibits mold & mildew growth for up to 7 days

Fast Effective Coverage

- Treats up to 300 square feet per minute
- Completely covers front, back and sides of surfaces

Easily Cover Large Spaces

- 18,000 sqft can be covered on a continuous spray
- Uses up substantially less solution to treat surfaces

Quality Design, Faster Results

- Ready-to-use premixed solutions for faster spraying
- Easy connection for quick reloading in large spaces
- Cover your entire area fatigue-free with an always-on feature

Safe for you, your space & technology

- Quick drying so you don't lose valuable business hours
- Safe on all office & electronic devices.
- Electrostatic sprayers are grounded devices, UL and CE listed.

US. product as directed. Consult product label or manual for complete safety information.

AK Building Services + Clorox® Total 360®

We can protect your facility with a revolutionary system that helps reduce pathogens like never before. It pairs an innovative electrostatic sprayer with Total 360® Disinfectant Cleaner to deliver superior coverage in an efficient, cost-effective way. **The system uses less solution, works faster and covers up to 18,000 square feet per hour.**

- **Applies chemicals faster**
- **Uses less solution**
- **More complete and consistent coverage**

The Clorox® Total 360® Electrostatic Spray System is a powerful, efficient and reliable method to ensure all surfaces – front, back and sides – can be properly disinfected and sanitized. The superior "wrap around" coverage provides better protection against the spread of illness-causing germs, faster and easier.
